WELCOME MESSAGE

On the behalf of organizing committee, we are thrilled to announce the annual conference of the GI Oncology Society, scheduled to take place in the beautiful city of Chandigarh from November 8th to 10th. The conference theme, "Bridging Horizons: Integrative Approaches to Upper Gastrointestinal and Hepatopancreaticobiliary Malignancies," emphasizes our commitment to exploring comprehensive strategies for addressing upper GI and hepatopancreaticobiliary cancers.

Our focus will center on these specific malignancies, with a pre-conference workshop dedicated to the intricacies of management of hepatocellular cancer. In addition to didactic lectures, case presentations, panel discussion, workshop will offer hands-on training in contouring and plan evaluation for SBRT in HCC. Our dedicated organizing team is diligently working to curate an enriching academic and scientific program for all attendees.

With a distinguished lineup of international and national faculties, the conference promises to offer not just an educational experience, but also a platform for exchanging ideas and advancing research endeavors. Attendees will have the opportunity to showcase their research via oral presentations, posters, and video abstracts, vying for captivating prizes. This inclusive opportunity spans across various specialties, including Pathology, Radiology, Gastroenterology, Surgical Gastroenterology, Radiation oncology, Medical oncology, and Hepatology, as the conference embodies multidisciplinary care in the realm of upper gastrointestinal and hepato-pancreaticobiliary cancers.

The emblem of Chandigarh is an open hand with the motto "Open Hand, Open Mind, Open Heart." This emblem symbolizes the city's ethos of open-mindedness, inclusivity, and receptiveness to new ideas and thoughts. Designed by Le Corbusier, the prominent architect of Chandigarh, the open hand represents peace, unity, and the spirit of giving and receiving. The organizing committee has orchestrated this conference in line with this principle, and we eagerly anticipate your active engagement. Additionally, the weather in November is expected to be perfect for the event. We kindly invite you to reserve the dates and join us for the inaugural conference of the GI Oncology Society.

CALL FOR ABSTRACT

Abstract formatting and submission guidelines

Abstract submission opens on July 8th, 2024 and closes on September 15th, 2024.

Abstract must be submitted at the dedicated portal gios2024.com

Abstract received by e-mail will not be evaluated.

Decision of abstract evaluation will be communicated by e-mail to the submitting (presenting) author by September 30th, 2024.

Abstract formatting and submission guidelines

- > Case description
- > Original research

Submission category

- > Free paper only
- > Poster only
- > Either of the above

Long prospective data will be selected for main session presentation

Abstract preparation instructions

All abstracts must be submitted in English-Times New Roman, with a font size of 12 and double spacing. To ensure blinded review-no identifying features such as names of Hospitals, Medical Colleges, Clinics or Places may be listed in the title or text of the abstract.

Do not include the names of authors and their affiliations in the abstract body. There will be provision of entering author details and their affiliation(s) in the submission platform.

The material in the abstract must be original and not published previously.

The title should be as brief as possible but long enough to clearly indicate the nature of the study. Abbreviations must not be used in the title. The title should not be written entirely in capital letters.

The size of the abstract is limited to 400 words (excluding title, authors, their affiliations etc.)

The brand names or name of the manufacturers for any drug or equipment is strictly prohibited. Use generic name(s).

Structure your abstract using the following subheadings

Original research

Background

Aims & objectives

Materials/patients & methods: Describe your selection of observations or experimental subjects precisely

Results: Describe your results in a logical sequence

Conclusions: Emphasise new and important aspects of the study and conclusions those are drawn from them

Conflict of interest: Declaration of conflict of interest is mandatory

Case presentation

Introduction

Description of the case

Conclusion. Mention why the case is unique and worth presenting

No references, graphs, figures or tables are needed with abstract submission.

Check spelling and grammar carefully. The abstract text cannot be edited after submission.

ABSTRACT SUBMISSION CATEGORIES

Esophageal, Gastroesophageal and gastric cancers

Gall bladder, pancreatic and bile duct cancers

Hepatocellular cancers

Rare GI cancers (GEP-NETs, ampullary and duodenal cancers)

Miscellaneous
